Physical anthropology is a biological science which focuses on adaptations, variability, and the
evolution of humans and their nearest relatives, living and fossil. Because human biology is studied in
the context of human culture and behavior, physical anthropology is also a social science. This course serves as
an introduction to the field. The areas to be covered include the principles of evolution, biological basis of
life, Mendelian and population genetics, human diversity, human (climatic) adaptability, growth and nutrition,
biological classification, the biology and behavior of non-human primates (primatology), and the study of
primate and human fossils (paleoanthropology). A separate laboratory (1 credit) is offered in conjunction with
this course. All those registered for the lecture course MUST register for one of the lab sections (ANTH
215L). Separate grades will be given for each course.

Required text: R. Jurmain, L Kilgore, and W Trevathan, with R L Ciochon 2010. *Introduction to
Physical Anthropology* 12th ed.

Grading: 3 lecture exams (2 midterms @20 pts. final @25 pts.) = 65 pts.
3 film reviews (@5 pts.) = 15 pts.
Unannounced quizzes* = 20 pts.
Total: 100 pts.

* The quizzes are normally given in the first or last 5 minutes of each class meeting. Makeup quizzes are not
given. The final average for quizzes is based on the 20 highest quiz scores received during the semester.
Excused absences require appropriate (e.g., note from physician) documentation and will not count against the
final tabulation of the average quiz score.

Extra Credit: The option of earning 5 extra points (to be added to final grade) is made available through
approved projects. Please read handout and/or see course instructor.
