With the rapid changes regarding COVID-19, it can be difficult to stay up to date with all that is happening in our islands. The Hawai‘i Public Health Institute (HIPHI) will be offering a series of webinars on the impact of COVID-19 on our communities.

This webinar will feature two key authors of the UHERO report, "How to Control Hawaii’s Coronavirus Epidemic and Bring Back the Economy: The Next Steps" which is currently being used by the House Select Committee on COVID-19 Economic and Financial Preparedness. Dr. Sumner LaCroix and Dr. Tim Brown will provide an update on the report, focusing on the need to build contact tracing and quarantine capacity, effective testing and monitoring and public support for a sustained response before Hawai‘i can reopen the economy. Our speakers will also provide examples of the experiences of other states and countries in reopening their economy. Finally, both speakers will address next steps and what to expect from both community and government as we move forward with the "new normal."

**COVID-19 Public Health Action Webinar**

**How to Control the Coronavirus and Bring Back Hawaii’s Economy**

**Date:** Wednesday April 29, 2020
