Academic Positions

- Fall 2011-
Present Professor, University of Hawai'i, Department of Sociology.
Courses taught: [Soc 100, Section 1: Introduction to Sociology \(Unit Mastery\)](#), [Soc 100, Section 3: Introduction to Sociology \(Writing Intensive\)](#), [Soc 214: Introduction to Race and Ethnicity](#), [Soc 300: Social Research Methods](#), [Soc 316: Survey of Social Change](#), [Soc 321: Survey of Sociological Theory](#), [Soc 358: Sociology of Korea](#), [Soc 495B: Tutoring and Testing](#), [Soc 610/715: Ethnic Identity, Conflict, and Cooperation \(graduate level\)](#), [Soc 751: Development in Asia \(graduate level\)](#)
- Fall 2005-
Spring 2011 Assistant Professor, University of Hawai'i, Department of Sociology.
- Fall 2001-
Spring 2005 Assistant Professor, University of Hawai'i, Department of Sociology.
- Fall 1994-
Spring 2001 Assistant Professor, University of Arizona, Department of Sociology.
Courses taught: Political Sociology, Social Research Methods, Rational Choice Theory (graduate level), Social Change and Development (graduate level)
- Fall 1990-
Spring 1993 Teaching Assistant, Stanford University, Department of Political Science.
Courses taught: Japan's Political Economy; Japanese Foreign Policy; The Politics of Foreign Aid; Race and Ethnicity in Africa.
- Spring
1986, Instructor, University of Hawaii, Department of Electrical Engineering.
Summer
1987 Courses taught: Pascal Programming, Fortran Programming.
- Winter
1983 Teaching Assistant, Stanford University, Department of Computer Science. Course taught: The Mathematics of Computation.

Education

- Ph.D. Political Science, Stanford University, 1994. Dissertation: *Re-examining Development: The Cognitive Basis for Rational Action*. Committee: Robert Packenham, Gabriel Almond, John Ferejohn.
- M.S. Computer Science, Stanford University, 1984. Major Areas: Theory of Computation, Artificial Intelligence. Master's Thesis: "A User-Modeling Front End for Dynamic Expert Systems."
- B.S. Mathematical Science, Stanford University, 1983.

Major Fields Of Interest

Formal Modeling and Simulation
Social Theory: Culture and Rationality
Sociology of East Asia
Race and Ethnic Identity
Development and Social Change

Award, Grants, Patent

University Award

[University of Hawai'i at Manoa Chancellor's Award for Excellence in Teaching](#), 2005.

Extramural Awards

Social Computing, Behavioral-Cultural Modeling, and Prediction 2016 Conference. Office of Naval Research, Broad Agency Announcement 2015-001. Contract N00014-15-1-2463. Principal Investigator, June 1, 2015-May 31, 2016. \$5000 obligated. Subsidy for travel awards to the SBP 2016 Conference.

Willingness to Pay Project, Subcontract from European University Institute. Sponsor Award ID 295675. Subcontract Principal Investigator, December 1, 2014-December 31, 2015. \$4999.37 Obligated. Computer-mediated behavioral experiments; part of larger project under Sven Steinmo investigating effects of different taxation schemes on compliance.

Social Computing, Behavioral-Cultural Modeling, and Prediction 2011 Conference. Office of Naval Research, Broad Agency Announcement 2011-001. Contract N00014-11-1-0344. Principal Investigator, January 4, 2011-January 4, 2012. \$7500. Subsidy for travel awards to the SBP 2011 Conference.

Developing Cultural Analysis and Sociological Network Theory for Understanding Virtual Communities and Their Intrinsic Relationships on the Web. Air Force Office of Scientific Research, Broad Agency Announcement 2008-3 (Discovery Challenge Thrusts). Contract FA9550-09-1-0261. Principal Investigator, April 15, 2009-December 31, 2011. \$507,168, with two-year option for \$397,463 also awarded. Subaward to Arizona State University. Development of web crawler for discovery of socially relevant information through use of cultural and network theories, content analysis, and other social science techniques.

Online Social Behaviors and Prediction of their Implications for the Physical World. Office of Naval Research Broad Agency Announcement 09-001 (Human Social Culture Behavior Modeling Program). Contract N00014-09-1-0805. Principal Investigator, June 1, 2009-September 30, 2011. \$570,013 originally awarded, \$353,754 obligated due to insufficient funds. Subaward to Arizona State University. Development of online and offline content analysis methods that can be used to measure major cultural and personality dimensions typically measured by surveys.

[Coherence-Based Modeling of Cultural Change and Political Violence \(CCPV\)](#). Air Force Office of Scientific Research, Broad Agency Announcement 2005-1, Contract FA9550-07-1-0253. Principal Investigator, February 1, 2007-November 30, 2009. \$1,611,416. Multifaceted project; see summary on website. Development of web crawler for discovery of socially relevant information through use of cultural and network theories, content analysis, and other social science techniques.

[Integrated Lab for the Computer-Mediated Study Of Culture](#). Office of Naval Research, [FY2005 DoD Defense University Research Instrumentation Program \(DURIP\)](#), Contract N00014-05-1-0347. Principal Investigator, May 1, 2005-August 7, 2006, \$159,131. Equipment for specialized laboratory for computer-mediated human subjects experiments that examine inter-cultural differences in behavior or interactions within multi-cultural groups.

Synthetic Training Environments. Office of Secretary of Defense, Small Business Technology Transfer Grant OSD07-T005, Asymmetric Synthetic Training Environments, Phase I, subcontract with Referentia Systems, Inc. University Subcontract Principal Investigator, September 1, 2007-January 25, 2008, \$30,000. Design of role-playing training software that includes culturally differentiated agents.

Grid-Group Cm-alpha, Profiling Cultural Factors for Decision Aiding. Air Force Research Laboratory, SBIR Grant AF05-069, Contract FA8650-06-C-6633, Impact of Cultural Factors on Human Performance, Phase II, subcontract with 21st Century Systems, Inc. University Subcontract Principal Investigator, May 3, 2006-May 2, 2008, \$137,684. Design of organizational procedures for small groups that adjust to heterogeneous cultural characteristics of group members.

Multi-National Cultural Difference Modeling. Office of Naval Research, Small Business Innovation Research Grant N03-112, Contract N00014-05-C-0523, Modeling and Simulation of Cultural Differences in Human Decision-Making, Phase I and II, subcontract with 21st Century Systems, Inc. University Subcontract Principal Investigator, June 17, 2003-May 16, 2004 and April 28, 2006-July 28, 2007, \$169,997. Development of general predictive models of human behavior incorporating general and measurable cultural differences.

Patent

Software Agent for Locating and Analyzing Virtual Communities On The World Wide Web, [United States Patent #7499965](#), March 3, 2009. Method for using of social network and other social theories as basis for web crawling algorithm that guides a general information-gathering and decision-support platform. This platform can be used to develop a number of applications, including those that perform the functions of a search engine, but with many more features, or that locate, analyze, and provide behavioral predictions for a virtual community of interest to the user.

Laboratory, Dataset, Software, and Commercial Development

Laboratory

[Integrated Lab for the Computer-Mediated Study Of Culture](#). Originally funded by an ONR DURIP grant, is used to carry out computer-mediated experiments that focus on the role of cultural differences on behavior in formal games. Hardware facilities also used to provide testbeds for server-side implementation of web-mining, behavioral prediction, and interface components of developed software, as well as to provide facilities for other University faculty who wish to engage in computer-mediated experiments.

Software

"CLASSIC: A Software Agent for Locating and Analyzing Virtual Communities on the World Wide Web" (Web Analyst). Agent-based software, originally written in scripting language, and adapted as a Java-based web application. Utilizes social theories and choice-theoretic models to locate information based on the identification of the virtual community that possesses this information.

Cultural Difference Modeling Software. Set of modules expressing in algorithmic form the ideas contained within the Coherence Model proposed in the book *Choosing an Identity*, as well as the representative formalizations discussed in the book *Culture and Social Theory*.

Dataset

[CCPV Constructionist Ethnicity Study Dataset](#). Responsible for original dataset conceptualization and design. Augmented design through discussion with Ilan Noy, who supervised dataset coding by team of students. This is the first group-focused dataset suitable for dynamic modeling of ethnicity construction. The proposition that ethnicity is a socially created concept with fluid boundaries is well-accepted in ethnicity theory, but there has not been any dataset suitable for testing predictive theories of ethnic construction and change over time. This is the first dataset to contain demographic and socioeconomic information on large groups that are defined by shared ascriptive attributes, whether or not groups such are deemed ethnicities. This allows testing of theories that attempt to predict the relative salience of different attributes in determining how a society defines ethnicity.

Student Guidance

Cumulative from Fall 2001-present: Member 39 PhD committees, chair of 8. Member of 17 MA committees, chair of 9. Of those 14 PhDs completed degrees, chair of one. 13 MAs completed their degrees chair of 7.

Departmental

Sociology Department Recruitment Committee Chair, Fall 2009-present.

Sociology Department Graduate Studies Chair, Fall 2005-Spring 2008. Wrote department's first comprehensive graduate program document: integrated, reconciled, and clarified existing policy documents; codified unwritten *de facto* department norms; removed outdated policy statements from old documents; met with faculty and graduate students to establish consensus on contents of program document; placed on website in [hyperlinked section-divided format](#) as a [single downloadable document](#). Designed general-track terminal MA Plan B degree, codifying requirements for MA for those not moving on to PhD track. Wrote first formal set of requirements for transfer from , initiated changes in qualifying review committee and research paper requirements.

Sociology Department East Asia Studies Group. Made the following presentations: "[Software for Locating and Analyzing Virtual Communities, with a Korean-American Case Study](#)", April 8, 2009; "[Is the Structural Hole Thesis Culturally Parochial? A Choice-Theoretic Formal Approach](#)" (paper with Mooweon Rhee), October 10, 2008; "Solving the problem of East Asian Economic Distinctiveness", February 22, 2006.

Sociology Department Undergraduate Studies Committee, Fall 2004-Spring 2005.

Supervisor, Undergraduate Individual Tutoring Project, Fall 2004. Hired and supervising two undergraduate tutors for use in assisting students in introductory sociology course. Interface with instructors of introductory sociology courses to identify at-risk students and to direct them to tutoring resources.
